

Allentown EAC 2022 Goals:

- **Drive greater transparency and accountability in the City on environmental matters**
 - Work with City staff on a dashboard on climate actions and other sustainability metrics
 - Continue to lead disclosures to CDP on GHG metrics
 - Continue to lead disclosures to ACEEE on energy efficiency metrics
- **Drive action to address environmental justice in Allentown**
 - Continue to work with PNLV to establish a civilian climate corps in Allentown that will focus on clean and safe neighborhoods (to include building community to address litter and plastics in waterways, implement stream buffers and community (food) gardens, engage in tree plantings, etc.)
 - Research and make recommendations on improving access to open space in marginalized neighborhoods
 - Research and make recommendations on ways to address tree equity in Allentown
- **Promote Environmental Education and Awareness in Allentown**
 - Develop and implement a sustainable business recognition program in Allentown
 - Assist in implementing programs for children and youth to learn about the social and environmental impacts of litter and how to reduce trash
 - Create and foster more social media engagement
 - Promote networking events with other EACs
 - Raise awareness on poison hemlock and mile-a-minute weed
 - Choosing green electricity
 - Participate in the City's and Muhlenberg College's Earth Day celebrations
- **Drive Other Environmental Sustainability Actions**
 - Research and make recommendations on promoting EE building with city programs
 - Promote solar panels for Allentown businesses and residents through solar cooperatives
 - Advise as requested on City's stormwater management actions/ plans such as increasing pervious surfaces and rain gardens
 - Review and advise on DEP Letters related to permits and cleanups in the City
 - Advise as requested on EV for City vehicles and EV charging stations in the City
